PERSONAL PROFILE

A detail-oriented Informatics Engineering graduate with hands-on experience in core banking system development and business analysis within the banking sector. Proven ability to translate business requirements into functional system specifications, with deep understanding of payment flows including transaction posting, GL reconciliation, and international transfers. Experienced in collaborating with cross-functional teams to deliver compliant and reliable banking solutions..

WORK EXPERIENCES

Next TI, Jakarta Apr 2024 – Present
Programmer – Core Banking Developer & Business Analyst

- Developed QRIS MPM payment integration, ensuring accurate payment posting and reconciliation in compliance with Bank Indonesia standards.
- Designed Daily Interest calculation for e-Saving products, translating product business requirements into automated backend logic.
- Analyzed and implemented Payroll Transaction, ensuring data privacy compliance and accurate GL posting for payroll disbursement flows.
- Led end-to-end development of Remittance module covering international transfer flows (SWIFT/TT), from requirement gathering through system testing and deployment.
- Translated business rules into technical specifications for a Cashback Program, coordinating reward calculation logic and GL posting with cross-functional teams.
- Performed Balance Sheet (Neraca) Adjustment and GL reconciliation enhancements to ensure accurate financial reporting in line with regulatory requirements.

Instagram (Freelance) Apr 2019 – Jan 2025
Social Media Manager (Remote)

- Managed and established a combined Instagram following of 100K by curating engaging content and optimizing posting strategies.
- Designed visual and wrote content to increase audience interaction and brand recognition.
- Analyzed performance metrics to refine campaigns and enhance engagement rates.
- Collaborated with clients and digital communities to align content with target audience preferences.
- Monitored trends and adapted strategies to maintain relevance in the competitive social media landscape.

Nutrifood x Telkom University, Bandung July 19, 2022 – Sep 16, 2022
Research Assistant

- Assisted in research projects as part of Nutrifood's Studi Independen program in collaboration with Telkom University.
- Conducted literature reviews, data collection, and analysis to support academic and applied research.
- Coordinated with mentors and team members to meet project deliverables and timelines.
- Contributed to report drafting and presentation of research findings in structured formats.

Agate x Kampus Merdeka Aug 23, 2021 – Jan 28, 2022
Game Programmer (Remote)

- Participated in Kampus Merdeka's Studi Independen program with a focus on game development.
- Designed and implemented game logic and mechanics using industry-standard tools and languages.
- Collaborated with artists and designers to integrate assets into game builds.
- Tested, debugged, and optimized gameplay features to ensure smooth user experiences.

Agate x Kampus Merdeka Aug 23, 2021 – Jan 28, 2022
3D Designer (Remote)

- Specialized in 3D modeling and design within the framework of Kampus Merdeka's Studi Independen program.
- Created and textured 3D assets for use in games and interactive media.
- Utilized software such as Blender or Maya to model, rig, and render objects.
- Worked alongside programmers and creative teams to ensure visual consistency and performance optimization.

EDUCATION

Telkom University – Bandung, Indonesia July 2023
Bachelor of Informatics Engineering

PROFESSIONAL SKILLS

Core Qualifications: Business Requirements Analysis, Payment System (Posting, Reconciliation, GL), Core Banking System, SKN/RTGS/TT/Remittance, Oracle Database, Linux/AIX Environment
Technical: C programming, Java Spring Boot, QRIS & Payment Integration, General Ledger (GL) Reconciliation, System Documentation & BRD Writing, C Programming, Java Spring Boot
Interpersonal: Critical & Analytical Thinking, Communication & Negotiation, Teamwork & Cross-functional Collaboration, Detail-Oriented & Conscientious, Problem-Solving, Adaptability, Leadership, Time Management
Languages: Indonesian (Native Proficiency), English (Intermediate), Japan (Basic)
